

TANJUM NAHER TANJU

AI DATA SPECIALIST | MACHINE LEARNING
ENGINEER

+8801838341852
tanjumnaher01@gmail.com
Chattogram, Bangladesh
[Linkedin](#)

PROFESSIONAL OVERVIEW

AI/ML professional with hands-on experience in AI data operations and machine learning engineering, currently applying that foundation to research. Motivated to grow into roles that combine technical depth with responsible, real-world impact in AI systems.

WORK EXPERIENCE

AI Data Specialist – Bengali | RWS (Vendor) (2026 – Present)

- Work on AI data operations, reviewing and processing data to support AI model training and evaluation.
- Apply Python and ML fundamentals in day-to-day data quality and annotation tasks.

AI/ML Engineering Intern | FlyRank (2026 July to August)

- Complete ML engineering assignments using Python.
- Working on a capstone project in Content Opportunity Scoring, applying ML modeling and evaluation.

Data Entry Specialist | WebmartIT (2020 – 2024)

- Worked on E-commerce inventory, image annotation & editing.

PROJECT

Deepfake Detection using AI | Capstone Research (extends undergraduate thesis, see Research & Publications) (2025 – Present)

- Trained and compared seven CNN architectures using Python.

Weather Prediction using AI | Academic Project

- Built a weather prediction model using Python and machine learning techniques.

Fake News Detection using Machine Learning | Academic Project

- Developed a text classification model in Python to detect fake news using ML algorithms.

Webpage Design Projects | Academic Project

- Designed and built webpages using HTML, CSS, and basic JavaScript.

RESEARCH & PUBLICATIONS

Deepfake Detection Using AI: A Comparative CNN-Based Approach | Undergraduate Thesis; Southern University Bangladesh | Ongoing Research

- Compared seven model for deepfake image detection; ResNet50 achieved 97.7% accuracy.

EDUCATION

B.Sc. in Computer Science & Engineering

Southern University Bangladesh
(2021 - 2025)

GPA: 3.10 / 4.00

SKILLS

- **Programming & ML:** Python, Machine Learning, Artificial Intelligence, CNN, Transfer Learning, Scikit-learn, AI Prompt Engineering & Tool Usage
- **Data & Tools:** AI Data Annotation, Microsoft Excel, Data Organization, Google Colab, Kaggle
- **Development & Version Control:** Git, GitHub, HTML, CSS, Basic JavaScript, Web Management
- **Business:** E-commerce Inventory Management, Product Management, Product Development Fundamentals

CERTIFICATION

- EF SET English Certificate, C2 Proficient
- AWS AI Practitioner Learning Plan
